Appointments

- Assistant Professor, Analytics and Operations Department
Imperial College London 2027 (expected)

Education

- *Doctor of Philosophy*, Management Science & Operations Research
London Business School 2020-2026 (expected)
Advisor: Prof. Ali Aouad
Thesis: "Operations of Modern Marketplaces:
A Tale of Optimization, Learning, & Incentives"
- *Master of Research*, Management Science & Operations Research
London Business School 2020-2022
- *Bachelor of Science*, Computer Software Engineering
Sharif University of Technology 2014-2019

Research Papers

1. *Near-optimal Adaptive Policies for Dynamic Matching*, with Ali Aouad and Amin Saberi, **Operations Research** (major revision), available online.
 - The conference version appeared in the 57-th ACM Symposium on Theory of Computing (**STOC'25**)
2. *Spatial Matching under Multihoming*, with Ali Aouad and Daniel Freund, **Operations Research** (major revision), available online.
3. *Improved Approximations for Stationary Bipartite Matching: Beyond Probabilistic Independence*, with Ali Aouad, Tristan Pollner, and Amin Saberi, in submission to **Mathematics of Operations Research**, available online.
 - The conference version appeared in the 27-th ACM Conference on Economics and Computation (**EC'26**)
4. *Stationary Bipartite Matching with Stochastic Rewards*, with Ali Aouad and Amin Saberi, *draft available upon request*.
5. *Long-term Optimization subject to Approachability*, with Neil Walton, *draft available upon request*.
6. *Governance of Social Welfare in Networked Markets*, with Fazli, **IEEE Transactions on Computational Social Systems**, available online.
7. *On the Maximum Order of Induced Paths and Induced Forests in Regular Graphs*, with Akbari, Mousavi, Nikpey, Sheybani, *Working paper*, available online.

Work in Progress

7. *Bayesian Learning in Online Decision-making*, with Ali Aouad, Senem Isik, and Amin Saberi.
8. *Learning Combinatorial Choice Models via Perturbed Optimizers*, with Ali Aouad, Vincent Auriau, and Antoine Desir, under preparation.

Honors and Awards	• Google PhD Fellowship in “Algorithms and Optimization” 2025 • Kavit Handa PhD Fellowship Award (2025-2026) • Ph.D. Fellowship, London Business School (2020-2025) • Bronze Medal in 23rd Iranian National Olympiad in Informatics (2013)
Research Experience	• Research Internship, Data Analytics Lab, ETH Zurich Summer 2018 – Working on the connections between distributionally robust optimization, stochastic gradient descent, and deep learning • Research Internship, School of Computing, National University of Singapore Summer 2017 – Working on semantic verification of programming languages
Teaching Experience	• Imperial College Business School – Teaching assistant: Data Wrangling and Visualization • London Business School – Teaching assistant: Decision Analytics and Modeling, Applied Statistics, Data Science for Finance, Decision and Risk Analysis, Data Analytics for Management, Business Analytics • Sharif University of Technology – Teaching assistant: Discrete Structures, Data Structures Design, Stochastic Processes, Engineering Probability and Statistics, Design of Algorithms, Data Mining • Iranian Young Scholars Club – National Olympiad in Informatics Instructor in several high schools and Young Scholars Club
Industry Experience	• Data scientist, Cafe Bazaar Company Feb. 2020 - August 2020 – On sponsored search auctions of CafeBazaar app marketplace – CafeBazaar is an Android app-store with more than 40 million users. • Quantitative analyst, Tosan Ofogh Hezareh Sep. 2019 - Jan. 2020 – On stock price prediction with deep neural networks – Tosan Ofogh Hezareh is an investment management company that combines data-driven approaches with domain expertise. • Research intern, Cafe Bazaar Company Feb. 2019 - July 2019 – On data-driven pricing in Divar online marketplace – Divar is an Iranian ads and E-commerce mobile app with more than 50 million users.
